

Join us for the adventure of a lifetime in the British Virgin Islands Flotilla

November 27 - December 6, 2020

The stunning 55+ islands and cays that comprise the British Virgin Islands have two fantastic assets – accessibility and virgin beauty. Known for years as a "sailor's paradise," cruising sailors were among the first to realize this truly was one of Nature's little secrets.

Tortola is the largest island and seat of government in this mountainous archipelago of gem-like isles. Virgin Gorda, Ginger, Cooper, Salt, Peter and Norman lie to Tortola's south and Jost Van Dyke lies to its north. Dozens of smaller islands, some with resorts, some unpopulated, lie between; Anegada, the only coral atoll in this chain of islands, is to the northwest. The BVI is a picture of contrasts. There are protected anchorages in quiet palm-fringed coves with spiraling sheer rock faces that plunge to the ocean.

The vegetation can be dramatically different from island to island due to rainfall, soil and sun. Lusher areas support palms and tropical fruit trees like banana, mango and key lime, along with flowering Hibiscus and Bougainvillea. A short hike up a hill may reveal varieties of cactus, wild tamarind and fragrant Frangipani. The surrounding waters are deep shades of liquid blue, but on Anegada, the waters takes on an ethereal aquamarine color.

This diverse and fascinating environment makes this group of islands appealing to divers, swimmers, boaters, hikers and those that just want to relax in a soft rope hammock overlooking a white sand beach.
